## EDUCATION

### University of Pittsburgh

*Bachelor of Science in Computer Science*

Pittsburgh, PA

*Expected Apr 2030*

### Richard Montgomery High School

*High School Diploma*

Rockville, MD

*2021 – 2025*

## SKILLS

**Programming Languages:** Java, Python, C, HTML/CSS

**Frameworks:** Swing

**Libraries:** JavaFX, pandas, BeautifulSoup

**Developer Tools:** Git, VS Code, IntelliJ IDEA, Eclipse, PyCharm

**Languages:** English, Turkish (Fluent)

## EXPERIENCE

### University of Pittsburgh

*Student Lab Consultant - Pitt Digital Computing Labs*

Pittsburgh, PA

*Aug 2026 - Present*

### Burlington

*Cashier / Customer Service Associate*

Rockville, MD

*April 2026 – June 2026*

- Handled transactions, returns, and customer questions in a fast-paced retail setting
- Kept the checkout area stocked and organized

## PROJECTS

**Solutions to *Introduction to Java Programming and Data Structures* Website** | *Java* June 2025 – Present

- Worked through over 150 programming exercises from the textbook using core Java
- Covered object-oriented programming, arrays, recursion, exception handling, generics, and basic data structures
- Wrote, tested, and debugged programs across a range of difficulty levels
- Deployed a website documenting all solutions in an easily accessible way with GitHub Pages

**Text Search Engine Archive for Turkish Oral Narrative(ATON)** | *Python, pandas* December 2024 – May 2025

- Indexed over 1000 Turkish Oral Narrative documents
- Built a command-line search engine that indexes and ranks text files by relevance using TF-IDF
- Computed word co-occurrence within a surrounding window to capture relationships between terms
- Used the web scraping Python library BeautifulSoup to scrape and mass download with a script the ATON since there was no way to download all documents.
- Used pandas to build and manage the term and co-occurrence matrices
