PROJECTS

Turkish Oral Narrative Search Engine | *Python, pandas, BeautifulSoup*

Dec 2024–May 2025

- Built a command-line search engine that indexed 1,000+ Turkish oral narrative documents and ranked results by relevance using TF-IDF.
- Automated bulk document collection with BeautifulSoup, replacing manual file-by-file downloads.
- Used pandas to build term and co-occurrence matrices and analyze word relationships within context windows.

Java Programming Exercises | *Java* | [GitHub](#)

Jun 2025–Present

- Solved 150+ exercises across 17 textbook chapters, applying object-oriented programming, recursion, exception handling, generics, and core data structures.
- Tested and debugged solutions and organized them by chapter in a public Git repository.
