EXPERIENCE

University of Pittsburgh

Student Lab Consultant, Pitt Digital Computing Labs

– Provide front-line assistance with lab workstations, Pitt Print, and other shared computing resources; report technical and equipment issues for resolution.

Pittsburgh, PA

Aug 2026–Present

Burlington

Cashier / Customer Service Associate

– Processed purchases and returns while resolving customer questions in a fast-paced retail environment requiring quick problem-solving.
– Maintained a stocked, organized checkout area to support efficient team operations and a smooth customer experience.

Rockville, MD

Apr 2026–Jun 2026

PROJECTS

Java Programming Exercises | *Java* | [GitHub](#)

Jun 2025–Present

– Completed 150+ exercises across 17 textbook chapters, applying object-oriented programming, recursion, exception handling, generics, and core data structures.
– Wrote, tested, and debugged chapter-organized solutions in a public repository with 287 commits.

Turkish Oral Narrative Search Engine | *Python, pandas, BeautifulSoup*

Dec 2024–May 2025

– Built a command-line search engine that indexed 1,000+ Turkish oral narrative documents and ranked results by relevance using TF-IDF.
– Automated bulk document collection with a BeautifulSoup scraper, replacing manual file-by-file downloads.
– Created term and co-occurrence matrices with pandas to analyze relationships between words within context windows.
